

Storm King's Thunder - Level 3 Coalition Statbook

Dubbo Table / Bookmark 4 continuation. Built for the Dripping Caves rescue after the Nightstone defence. Uses 2014 D&D 5e table state, SKT Chapter 1 source material, and table-canon improvisations as marked.

Important Accuracy Notes

- This is a table-use reference, not an official character sheet or replacement for the Player's Handbook / Monster Manual / Storm King's Thunder.
- The three player characters are listed as level 3 with full maximum level 3 capacity. Current live spell slots may still depend on Marcus's level-up refresh ruling.
- Rond plus seven wood elf scouts are source-compatible. Scout labels A-G are table tracking labels only, not published source names.
- Sydiri is source-listed as a guard; this table has played her as a tougher sergeant during the orc defence. Both facts are noted.
- Kella and Xolkin are temporary allies under public oath, not morally converted heroes.
